TECHNICAL SKILLS

Front End - JavaScript(ES6), jQuery, React.js, Redux, HTML5, CSS3, API Integration, AJAX, Sass, Material Design, Bootstrap

Back End - Node.js, MongoDB, MySQL, PHP, Amazon Web Services, Java, C++

Development Tools Used - Git, GitHub, Postman, Meistertask, Firebase

RECENT PROJECTS

Dansu Mentors

- Utilized React.js, JavaScript, and Firebase to create a fast and responsive one-page website.
- Employed Google Maps API to filter search results, using reverse geocoding to determine distance.
- Deployed application onto an Amazon Instance integrating Node/Express with a MongoDB database.
- Coordinated with a small team of developers to create a website connecting mentors with potential mentees.

Student Grade Table

- Utilized JavaScript and jQuery to create a student grade table which integrated with the back end.
- Implemented CRUD functionality using AJAX calls, and applied styling with Bootstrap.

What Should I Watch?

- Worked with HTML, CSS, and Bootstrap to create a sleek, minimalist design with an intuitive UX.
- Built using jQuery and AJAX calls to effectively integrate functionality from multiple APIs together to create a fast and lightweight application.

EXPERIENCE

Summertime Inc. - *Property Manager*

2013 - 2017

- Simultaneously managed 25+ units, effectively relaying concerns between homeowner and tenants.
- Accurately estimated repair and renovation costs, and audited invoices for all paid services.
- Worked closely with homeowner to fill vacancies quickly, effectively maximizing monthly revenue.

EDUCATION

LearningFuze - *Accelerated Web Development Course*

2017

- Studied and applied several languages, associated frameworks, and development tools including, but not limited to, JavaScript, React.js, Node.js, Redux, HTML5, and CSS3.

Udemy - *Full-Stack Development Courses*

2016 - 2017

- Completed several courses within the scope of full-stack development. These include Javascript (ES6 Node.js, React.js).

Orange Coast College - *Computer Science*

2015 - 2017

- Began my software development education through computer science courses including Java and C++
